

clíc[®]
always around you

CliC is the ultimate personification of two elements joining together to form a unique bond. CliC! is the sound of two high powered neodymium rare earth magnets.

CliC eyewear was invented and designed to be the most unique type of eyewear.

Combining function and form CliC is a must have product. A way of life, a statement about each user. Once you wear CliC nothing else will seem right and more importantly you will never misplace your eyewear ever again. CliC, there is nothing else in the world! CliC, eyewear for the 21st century.
