# Crafted with purpose. Proven over time.

Since 1985, Revo lenses have set the benchmark for clarity and protection. Our craftsmanship is rooted in performance, refined, resilient, and trusted by those who spend their lives outdoors.

“  
For many, Revo wasn't their first pair of sunglasses. It was the first pair that made a difference.  
”

---

# Space-grade technology. Earth-shifting vision.

Most people never leave Earth.  
Even fewer truly see it.

Revo was founded on a vantage point very few experience, the optical brilliance of space. Our lens technology was engineered to manage the full spectrum of light with precision, delivering a level of clarity and depth inspired by that rare perspective.

# The Revo NASA Light Management System™

Learn more about the composition of the Revo lens.

## Innovation you can see.

“Revo sunglasses aren’t  
rocket science. Oh wait.

They are.”

THE REVO DIFFERENCE:

## The Revo NASA Light Management System™

**NASA-based lens technology** –  
see your world better

**100% polarized UV protection**  
– the best protection and glare  
reduction you can buy

**All day comfort and protection**  
– forget you are wearing  
sunglasses

**The original mirror lens**  
– everything else is just a copy

**Digital Device friendly tech** –  
protect your eyes and still read  
your device

### Revolution Rx

The only exact match authentic  
Rx program – Revo Rx sunglasses  
deliver the same iconic Revo  
mirror lenses you know and love.

# Revo Lenses

For over 40 years, Revo has been synonymous with unmatched lens performance. From sunglasses to goggles, we deliver perfect vision and all-day comfort by seamlessly pairing the ideal lens material with every frame.

## Serilium™

Serilium™ is a polarized, polymer-based, multi-layer mirror coated sun lens developed by Revo. It is **featherlight** and **high-impact resistant**.

## Serilium+™

Serilium+™ is a nylon-based, multi-layer mirror-coated polarized Revo sun lens. It is **lightweight** and impact-resistant and offers premium optical performance, similar to crown glass.

## Serilium Photochromic™

A **light-adaptive** version of Revo's most sought-after Serilium™ colors. These lenses adapt to external light conditions, **changing from light to dark** tint for optimal visual experience.

## Crystal Glass

Revo's **heritage premium lens** ground and polished to the quality of a camera lens. Featuring shatter-proof "sandwich technology", two thin layers of glass are fused together allowing for thinner and lighter lenses than the traditional glass options.

REVO LENS SUMMARY

**Blue Water lens (BL)**

Signature protection on or off the water

**Base color:** Brown-Gray  
**Coating:** Blue Full Mirror  
**VLT:** 13% (Cat. 3)

# Revolution Rx Program

The genuine Revo lens is also available as a prescription sun lens

The only prescription sunglasses that feature polarized NASA lens technology.

Enjoy superior contrast, clarity, and UV protection.

Experience the same superior optics Revo has offered since 1985.

All Revo sun lenses are polarized

Identical **color** and **performance** replication

Advanced **digital lens design** technology

Available in **single vision** or **multifocal** options

## WARRANTY

All Revo Sunglasses are warranted against defects in material or workmanship for two years from the date of purchase. This warranty is valid only with proof of purchase from an Authorized Revo Dealer. Revo does not warrant any lenses against scratches or breakage. Alteration, misuse or abuse of any Revo product will void its warranty. Legal rights under applicable Federal and State Laws governing the sale of consumer goods are not affected by this warranty.

A manufacturing defect is defined as any malfunction or failure that occurs without an external cause.

Please visit [Revo.com](https://www.revo.com) for all warranty inquiries.
